# VIRTUAL TRAINING OPPORTUNITY

## R for Beginners

This is a 2-hour training on R, the statistical programming language. We will introduce foundational R skills including installing packages, analyzing and visualizing data, and exporting output. No prior knowledge of R is necessary.

### LEARNING OBJECTIVES:

1. Understand R syntax and structure
2. Manipulate datasets and conduct simple analyses
3. Create and export tables and figures

### Training Facilitators

#### **Julie Morris, PhD, MA | Biostatistician**

Dr. Morris grew up in Wasilla and joined the Alaska Native Epidemiology Center as a Biostatistician in 2022. Julie holds an MA and PhD in Sociology from the University of Washington. She specializes in statistics, demography, and social determinants of health research.

#### **Megan Ackerman, MS | Associate Health Statistician**

Ms. Ackerman joined the EpiCenter in 2021 as an Associate Health Statistician. Megan holds a BS in Mathematics and an MS in Demography, and she provides data analysis, data dissemination, and technical assistance.
